Wow, this is generous!

These are rich scriptural meditations set to some really good songwriting. The melodies are all interesting and singable. And the recording quality is strong and transparent, with the words coming through loud and clear.

Greg, let those guys know they've done a great job. This is a real blessing.

Thank you,

MC

Yes, its an home fellowship in British Columbia, Canada. I have been privileged by the Lord to be able to connect with these brothers and hopefully in the near future to go and fellowship with them.

This new album is really done well, there is something about selling music that is strange in our day of Christianity, its a strange thing that never happened much in the history of the church. What a refreshing apostolic thing it is to see these songs offered for free.

Hi Greg,

thanks a lot for making these wonderful godly songs available for all of us here. And not only that but even their lyrics and chords!

I've been richly blessed by listening to them in the past couple of weeks and I was already wondering whether I can get their chords from somewhere. I am learning to play the guitar, but also I'd like to share them with my worship team at church and perhaps we could do some of them. Now this comes like a wish coming true!!

May our Lord continue blessing this group and all such fellowships who seek sincerely to please Him and see His name glorified above all!

Keep us updated...;)

In Jesus,

Milica

My wife and I just spent some time listening to these songs. We appreciate them very much. The lyrics are pure, simple, and much is directly from the scripture. The music is smooth, clean, and enjoyable and blends together well. Thank you to the brothers for this blessing of devotion to the Lord and thanks to Greg for bringing it to us.

Sincerely,

Christopher Joel Dandrow

I am taking the guitar chords and giving them to a few of the leaders in my home group to see if they can play the songs for the people. I think I am going to choose "fire of God" and "John". Should be great to sing some new songs that the Lord has birthed from this fellowship.

Glory, glory be to our God!

In the midst of all the busyness I downloaded these songs...and how they stir my heart, bring peace to my soul.

May we all labour for Him in surrender. As I read today:

"Christianity is not difficult to live, it's impossible. It is Christ living in you that is real Christianity. That is where the life of Christ is. Not what you try to do, but what He does in you." (Edwin Louis Cole)

A companion of all you out there who fear the Lord (Psalm 119:63). Give Jesus a chance to work His works in you. Don't give up or despair. You are not where you want to be? Your words still do not match your life...but you desire Jesus alone? God takes His time...will you lead Him?

A thought: Live your life in reality, for that's where Jesus is.

In awe, amazement and adoration of Jesus Christ.

Paul

Amen brother. I have been listening to this album so much what a blessing it is, truly Jesus shines through it and the man (vessel) is bypassed in quite a wonderful way.

Brother Greg

This music is simply awesome! It is an answer to a prayer I didn't even know was in my heart. We have a Brother here who is really talented in worship but he does not have a good base of word inspired songs. This is going straight to him. There is so much poor gospel it takes real discernment to pick out stuff like this from out of all the chaff. May God be blessed by the ministry of making all these things available to us. You have no idea how the sermonindex ministry is touching people Brother! May God bless you and increase your labor of love in Him.

If you have not listened to this album I highly recommend you do, I gave a copy of it on a audio cd to a brother on the christian campus where I am at and he was so blessed and shared it with others and made copies. People are so blessed by it that he wants 50+ copies to hand out to others in his words "it will be such a blessing and ministry to others". So God willing I am going to make many copies to hand out to people.

I suggest you do the same as a ministry to others, simplicity in worship is so needed in our day.

Hey Greg - I think you got the website wrong.

The website is www.christOURlife.ca not www.christFORlife.ca

Here is the link to the correct website - they also have great comps and sermons -

(www.christourlife.ca) www.christourlife.ca

Re: - posted by Tears_of_joy, on: 2006/5/4 22:15

Sir, thank you very much. This really makes sense. I will edit also the link in my previous post. Honestly I did not find some connections between the 'wrong' site and the brothers that are singing. (www.chrisourlife.ca) This fellowship looks to me very sound.

I have made more copies of this album for people at the bible college and people can't stop listening to it. They are so blessed, what a great way to minister to people to simply download these files and make copies on CD's for other people. This music really ministers to me even during some prayer times.

All I can say is that this is an awesome set of songs.

Thanks so much for posting them.
