I was just wondering how to subscribe to the podcasts with iTunes in order to have them download automatically? Thanks!

Hi Brother,

1. Simply download "itunes" [www.itunes.com](http://www.itunes.com) and install it.
2. click on this link: <http://phobos.apple.com/WebObjects/MZStore.woa/wa/viewPodcast?id=161123223> and choose the subscribe button in the software when it loads.
