### The Housing Bubble Cause & Effect ... - posted by Rahman, on: 2006/7/28 12:40

This is an interesting site i believe i was led to just last week ... It has a scriptural thread running thru the link postings of magazine and newspaper articles reporting on the state of the U.S. Housing Market ...

Again what is posted is not to elicit fear for as children of the King our trust is in Him ... What is posted is for those who like to be informed of the "why's" of what's happening in the American economy ...

Be informed!
