Could anybody give me a list highly recommended sermons by Zac Poonen? I've heard a few and they were excellent. I've listened to "Hungering more for God" it was definitely worth the listen.

so, anybody?

One of the best things I ever did was listen to his whole series entitled 'Basic Christian Teachings' it's 76 messages long, but they're only 15 minutes each. That is one of those landmarks in my spiritual walk I like to look back to -it was like getting hit in the face with a shovel, it's hard to forget.

I also recommend anything that has 'new covenant' in the title.
