### Art Katz April 28th health update - posted by Goldminer (), on: 2007/5/1 13:45

I don't know if this was already posted, however I didn't have time to look it up so I am just posting this and hoping your will forgive me if it is the second posting of it.

Let's continue to pray for Art.

April 28, 2007

We are pleased to announce that Art is back home. His strength and breathing have improved significantly. After numerous tests, the doctors didn't find anything threatening (no blood clots in the lungs, etc). The doctors have made the decision to increase his daily dose of steroids, which has brought the current flare-up under control.

Always appreciating your prayers,
