I have posted it to my site, (<http://www.realmofshazbot.com>) <http://www.realmofshazbot.com>, but as you can see, it's not quite working. You're a more experienced webmaster than me -- maybe you know why it doesn't work? I do all my pages by hand, so it's probably an error of my own.

Sorry about that I have immediately fixed the code to get it working perfectly now. If you run across any other problems let me know but it seems to be working great right now.

other site that added the code recently:  
<http://www.baspub.com/>

<http://www.pryorcreekcommunitychurch.org>

I posted the featured sermon script to the above site but had to put it on the "Sermon" page with a link because of the size. is there a smaller image available?  
(sorry about all the messages...I am old ....BUT I AM SLOW! :) )

Hi Sister, sorry there is just one image size available. But I like how it looks in the sermon page and seems to fit very well there! ;-) But hey don't think you're too old for this you have done an amazing job with your website sister [www.pryorcreekcommunitychurch.org](http://www.pryorcreekcommunitychurch.org)
