SermonIndex Support :: separating a file

separating a file - posted by rkm, on: 2007/9/25 0:35

There are some sermons that when downloaded, will not let you burn to a cd. The sermon is over 80 minutes. One of the files is Art Katz, "Priests Unto Him". How do I separate the sermon into two files so that I can copy to two discs? I am using Windows Media player to open my files and then burn to a disc. Thanks for the help.

You can try Audacity or any audio editing program. With it you can split it up.

http://audacity.sourceforge.net/

There should be help files on that website. If you have any troubles, let me know.

God Bless,

Josh

PreachParsly,

I've often wondered how to do just what this brother has asked. By your link i've downloaded "Audacity", now i just need to learn how to use it. As i to burn sermons, etc., using windows media player. Just wanted to say thank you so very very much brother.

rkm,

Wanted to welcome you to sermon index as i noticed this is your first posting. There are many great treasures to glean from and many great brothers and sisters to share with in the forums. Make yourself at home and God Bless you as you grow with all of us in the many fruits sermon index has to offer.
