A dear brother from TSC has gotten these audio files up to bless the body of Christ at SermonIndex. It was a men's retreat and seems like a really great thing for men of families to listen to, it will prove to challenge and God willing change you.

Thanks for posting these messages Greg, they are excellent!

It's kind of strange to hear a woman speaking at a mens retreat but Theresa Conlon brings a perspective that might otherwise be missed. Both she and her husband have an anointed ministry.

I hope those folks at Times Square Church know just how blessed they are to have leaders and ministry like that, I thank God that through the internet their ministry can be shared with us. The Lord is good!

In Christ,

Ron
