I am wanting to read a biography on the life of John Wesley. Does anyone have any recommendations?

Hi quentusio...

V. H. Green's 1964 biography, *John Wesley*, is a very detailed academic read.

John Polluck wrote *Wesley the Preacher* which is less academic and but a much more interesting read.

Graham Maddox wrote *The Political Writings of John Wesley* which detail his (limited) involvement in politics, especially in regard to slavery.

All of these books are available on Amazon.com! I hope this helps!

:-)

Thank you.. this helps a lot. I am particularly interested in his relationship with Susanna and Charles, his interaction with the Moravians, that fateful night at Aldergate, and his preaching.. Thank you so much for the recommendations
