

SermonIndex Announcements :: FEATURE: Random Article Block**FEATURE: Random Article Block - posted by sermonindex (), on: 2004/6/24 13:37**

I am glad to announce a new feature at sermonindex "Random Article Block" On the front page of SermonIndex at the lower right you will see an random article that will load every time you re-load the page, it is drawn randomly from the database of articles found in the articles section of the site that current has over 3200 text articles.

[Image: https://www.sermonindex.net/images/forum/2004/june/random_article.gif]

Here is a snapshot of the homepage block for the 'random article' this will change everytime you load the page and will show a different article.

Re: FEATURE: Random Article Block - posted by sermonindex (), on: 2004/7/29 20:02

Praise God I have been able to get up **over 10,000** text articles now in the (<https://www.sermonindex.net/modules/articles/>) Articles Section. This is a great milestone and I will be allowing other large Christian sites to update their databases with all of this information and hopefully find more portal Christian sites that would like to have the content.

Praise God for this brother. You are a true servant of the Lord and we reap your hard work.

Grace,
Doug Renz
