Freedom CD - posted by revival9 (), on: 2004/7/12 12:43

I'm having too much fun over here! My computer-tekkie son installed everything to burn CDs, so I made some Freedom audio CDs. Then I downloaded paper cd cases...

www.papercdcase.com

...rounded up appropriate clip art and coordinating fonts, spent a few hours with PhotoImpact and Print Shop, did some hand cutting and pasting and copying. Now I have cool, homemade CD covers with Freedom CDs tucked inside. For a few hours work and a little ink. The possibilities are endless.

I'll be working on the Revival Hymn cover with text next.

Thanks to Mike Balog for emailing me the text!

Can I post pictures of my results?

Thanks,
Mrs. Fred
