Saints,

This is a powerful series preached by Gerhard Du Toit in Australia. The first sermon is well worth a listen in the series:

bump

I just spent the last week listening to this series in my car...to and from work (and occasionally my wife would allow me to play them while we drove together ;) and they have been a blessing on prayer. He gives you much to think about and challenges you to do more for God's glory.

Well worth the time.

Amen, I agree!

I'm listening to the series right now and it is wonderful. Some of it is the same powerful principles of prayer that I've heard him share on before...but there is definitely added insight in this series as well as new illustrations. Listening to these messages is good preparation for the upcoming revival conferences.

Greg, do you know when he gave these messages in Australia?

Ignorant me, I had never heard of him until Greg suggested him as a "Must Hear"... his humour is refreshing as well.
