I am grateful that the breakout messages were captured.

Ron Bailey's "Enabling Word of Grace" (my title to it) will have effective application for the local church and relief perhaps for leaders. There were insights into John's heart that were new to me. Oh that we would want to be his people a gain, go after Him. The truth of who is trimming and supplying oil to the lamps matters greatly.

Dean Taylor's message "Why Does Revival Leave" (his title) was richly documented. Having heard "Enabling Word of Grace" first, I could not overlook similar points in these two messages from different places in the Word of God.

Because the YouTube title is long and extends to the point that "Part-2" etc. and is not seeable, I made a link document with the whole series to refer back to. That solved the problem of selecting parts out-of-order.

Do you have the video of when Dean Taylor was singing "Then sings my soul"-oh that blessed me so much.
