Did the forum just disappear from the frontpage? - posted by ccchhhrrriiss (), on: 2009/1/1 14:41

Hello...

I can't seem to see the forums listed on the frontpage right now. Is this a mistake...or is this a new format?

Just wondering.

:~)

There are problems with the database.

We need to pray.

It appears to be fixed right now. But from this I have noticed "hacked" attempts at the site, which could be totally normal! But I want to over the next few weeks have some people help lock down the site more with better security!
