I have this beta disc recording of Leonard Ravenhill video "**Gethsemane's Cup**" and also an old message by Winkie Prater called "**The Test of Crete**". I have a vhs player hooked up to my desktop machine with a video converter box but don't have a Beta player box. If anyone has an old beta player box and is not using it please pray about donating it to this ministry so I can get these old recordings and others up.
