To any who are interested in a comprehensive and startling history and discovery of satans Babylonish world religious system from Nimrod's Babel, to it's culmination as the harlot Babylon the Great spoken of in the book of Revelation, then listening to this 12

part series "Scarlet Threads, History of Mystery Babylon - by Bob Faulkner" is a must! ...

By the time you get thru Part 3 (The Church's First 300 Years) it'll begin to rip the covers off of satans influence into Christ own Church via the Roman church then, and on through 12 expose it in the Protestant church now ... Sinister!

Easter and Christmas will never be the same to you again, even if you already know they're paganly tainted!
