

SermonIndex Support :: Downloading threads as pdf's

Downloading threads as pdf's - posted by running2win (), on: 2009/7/18 19:53

Hey, I haven't been on much the past year, and some things have changed a little. I'm wanting to download the **Great Quotes 8** thread as a pdf and can't seem to figure out how. Could someone reply to this and tell me how? Thanks in advance!

~Jeff

Hi,

some larger threads don't download easily. I think if its beyond 2-4 pages it won't download at times.

Re: - posted by running2win (), on: 2009/7/18 20:22

Hey, thanks for replying Greg. But what I was wondering is how to get the thread in the pdf format in the first place. I don't see a *view thread as pdf* button anywhere... that's my hang up.

Re: pdf - posted by Lysa (), on: 2009/7/18 20:39

running2win,

At the top of all the posts are two drop down little bitty windows "Flat" and "Oldest First" (at least that is what mine says).

Click on the little printer next to those windows and the pdf will open and then click "save"

Good luck!!

Lysa

I also downloaded CutePDF Writer, it is free. Because I quit using paper to save stuff on! I just make a pdf of webpage s I want to read.
