I confess, I don't know a great deal about God's Angels. Are there any sermons out there that teach on Angels? No articles please, just sermons, thanks SI!

here are two sermons, the topic at hand is not angels so much, but brother ron does go into it a bit and shares much on sin and its origin from satan, he was a angel from the beginning. So you can glean some things from here, but as ron points out, the bible is mans story, not the angels story, we are on a need to know basis :-)
