Add the Revival Conference Webcast to your blog or website. - posted by sermonindex (), on: 2009/10/27 8:00

Saints,

Example:
http://jesuspaid1time.blogspot.com/

You can add the actual live webcast and upcoming event info to your OWN WEBSITE OR BLOG. By simply making a BLOG Post, with the title: "Revival Conference Live Webcasts 2009" or something in that regard and just put this code below in the post. And it will display the live webcast video player and other information for the upcoming events:

<SCRIPT LANGUAGE='JavaScript' type='text/javascript' src='https://www.sermonindex.net/revival.js'></SCRIPT>

I really encourage you if you have a blog to do this to help spread the word about these events.

I have posted the actual code here in this thread:

<SCRIPT LANGUAGE='JavaScript' type='text/javascript' src='https://www.sermonindex.net/revival.js'></SCRIPT>

here is another example of a site that added the script: http://www.heartcrymissionary.com/donors/revival-conference-live-webcast

You can add it simply as a blog post or as a whole page on your site.

I just have a family blog, but I added the Link in because it was so easy and so my family will all be aware of the conference so they can pray even if they cannot attend.

Praise God for the ministry of Sermonindex.
