its an awesome book in many aspects, cant review it with a few words, read it brother, my favorite chapter is ch22 " The Sovereignty of God " , it really helped me on the way to reconcile the free will of man and Gods Sovereignty and to see both can be true as taught in scripture without any contradiction and the need to systematise our theology.

But do read the whole book, Tozer shares very good on many of Gods attributes. the effect on me was a greater reverence for God to put it short.

I highly recommend prayerfully reading this book. In my opinion these sites are explosive and very anointed. But you also need ears to hear. Daniel

It is one of the greatest theological works you will ever read. Tozer takes the attributes of God and shows how they apply practically to our lives in the faith. He shows that the attributes of God are not just some play thing for theologians to quibble about. It's truly an eye opening book. I read most of it on a vacation about a decade ago. I never quite finished it all. But, it's by far one of the greatest works I've ever read, and has made a lasting impact on my life. This is Tozer's masterpiece.

I don't read many books other than my bibles and my bible reference books,but old books like this really an inspiration,they convict me and that is a good thing.
