Dear Earl, I live in the country where to lose job is a normal thing. We have no job security. But even here God has His ways to keep us alive and feeds us. We have 5 children and God does an amazing thing to provide for us. Many people I know are experiencing such struggles sometimes changing a few jobs a year without even receiving salary. But in all of this I believe it is not for you only to be broken but to be made anew for a purpose. Blessings lena
