

Miracles that follow the plow :: ANDREW STROM is IN HOSPITAL

ANDREW STROM is IN HOSPITAL - posted by sermonindex (), on: 2011/5/17 11:30

As you all know, Andrew recently visited Papua New Guinea where he had a wonderful and encouraging time. God was moving and many were baptised and received the Holy Spirit. Milne Bay Province, where Andrew was ministering, is the seat of witchcraft in PNG.

Less than 2 weeks after his return to Melbourne, Andrew began to experience fevers and chills. This continued for about six days. Although we had visited the Dr and been advised to wait a while, it began to increasingly trouble us the Andrew was not recovering as he is hardly ever sick.

As the situation worsened, we felt he should have blood tests done at the hospital. Sadly, it was discovered that Andrew has Malaria which, as you probably know, is a serious illness. Andrew will remain in hospital for a number of days.

We would greatly appreciate your prayers for a speedy recovery!

God bless you,

Jacqui Strom

Most definitely will be praying for him. That the healing touch of Jesus will make him completely whole.

Dear Friends,

Thank you all so much for your prayers as well as your many words of encouragement and comfort.

I wanted to let you know that Andrew is responding well to the treatment thus far. At this rate, the Drs expect him to be out of hospital within days. He is being looked after with his own room and shower etc and the hospital staff have been most helpful and thorough.

Andrew's stay in hospital and any associated treatments are free of charge here which is a great blessing.

Please do pray that Andrew's blood platelets and red blood cells

are restored to normal levels and that there will be no residual after-effects.

God bless you and thank you for your continued prayers and support!

Jacqui Strom

SPECIAL THANKS to ALL

-Andrew Strom.

I just want to say a big Thankyou to all the wonderful people who prayed for me while I was in hospital. I am home now, a little weak and light-headed from the fevers of the week and the medication - but otherwise fine. Thankyou so much, my friends. The Malaria is now gone from my bloodstream. Praise God!!

Blessings to you all.

Andrew Strom.
