

Miracles that follow the plow :: Sick Babies

Sick Babies - posted by mguldner (), on: 2011/5/25 14:21

Hello everyone I would appreciate some prayers for my two little ones, both have some kind of stomach virus that is giving fevers and vomiting. My little girl seems to be doing better than my little guy but both still have temps.

Thanks and God Bless,
Matthew

Matthew,
My Prayer is that Jesus the Healer will come to your Home, and touch these precious children.
God Bless
Nellie

In the Powerful Name of Jesus we call forth the fevers from these little ones and pray they be restored to health and wholeness. In Jesus Name.

No weapon formed against them will prosper.

Glory to God! Praying with you all.

Thank you all for praying, I would ask you continue to pray for my little guy. My daughter seems to be functioning back to normal but my son seems to be having more difficulties, I think he may have inherited my allergy problems...OH joy. :(

But to say the least they are both no longer sick from the stomach stuff so the vomiting and fevers have ceased. But we played outside today and so I think that messed my son's allergies up. Pray for patience and compassion for my wife because as I left for work my son was being quite unruly and difficult to work with, And pray my son finds some peace and rest tonight and gets some good sleep.

Thank you again
God Bless,
Matthew

I thank the Lord that my little ones are back to normal, sickness GONE! It's always so sad to see them sick but everytime I can't help but think of our Heavenly Father looking down on us when we are sick and giving and showing a deeper and greater compassion than we ever could.
