Saints,

From time to time there is some people who register and post many links on the forums to try and help their search engine ranking of their sites. The moderators are watching the site constantly to delete these. If you notice these please email us.

Also please pray God would spiritually protect the site from such attacks and the Grace of God would be so abundant on this website ministry that these things would not happen or be very few.

Praise the Lord for His great care for His own. Thank you God for keeping this site so pure from the attacks and defilement's of the enemy.
