I just recently found this fantastic resource and thought I'd share it with you here. Below is a link to the entire library of books and sermons by T. Austin-Sparks. Available in epub format (for iPad, phones, or Nook) and mobi format for Kindle and html format for any Web browser. Instructions are at the top on how to download them. There is one book I've seen published by SeedSowers that is not listed: "Rivers of Living Water." If anyone is familiar with this title other than the Seed Sowers publication, I'd like to know where you've seen it, what publisher, form, date, etc.

that's tremendous to see them transit all the content to .epub and .mobi formats for cellphones. That is the best site resource for T. Austin Sparks content on the web.

I'm not familiar with T. Austin Sparks - but I've just downloaded everything on their site so I will be soon.

Thank you!!

I would suggest you start with "The School of Christ." It is his best known and perhaps his best content-wise.
