Just wondering why Billy Graham has his name on this site but with zero sermons listed. I would think he would be approved by this site (no?). Does anyone know the reason?

also, does anyone has anything against the man? I don't know him very well but I've heard he is a beloved man of God.

SermonIndex supports and is blessed by the ministry of this man of God. We were asked to take down the section with his sermons by Billy Graham Association and we respect their decision. Hopefully in the future they will release his materials more freely to edify the body of Christ.

There are encouraging devotions and also classic videos of brother Billy Graham ministering here: <http://www.billygraham.org/dailydevotion.asp?ArticleID=7414>
