The health department in the US state of Washington is to remove the words "husband" and "wife" from marriage and divorce certificates, after same-sex marriage was approved in a recent referendum.

The state began changing the legal document wording before the public vote even happened, according to a spokesman .

Tim Church, from the health department, said spaces once reserved for a "bride" and "groom" will become more gender-neutral.

Hmmm....wonder how long it will be when they will remove the space asking for the gender of this person? Are they not going to have some fun!

What a tangled web we weave when we start to deceive.

This is simply unbelievable. Not only are we allowing this country to redefine marriage, but the very country itself. Obviously the president knew what he was saying when he stated, "The United States is no longer a Christian nation". Not only do we accept sin as the norm but we promote and encourage it. How very, very sad.

As Scripture says, what we sow, we reap. You sow sin, you reap it, sow godlessness etc.

God is not mocked.

The article states, "In Spain, terms such as "mother" and "father" have become "Progenitor A" and "Progenitor B" on birth certificates." A BIRTH certificate. Now how's that work?

Spouse A and Spouse B

So when babies say, Momma or Dadda, I wonder if they will become politically correct and learn their A's and B's or will they mind their P's and Q's?
