The UN gets tough with North Korea (asking for calm) - posted by sonofthunder (), on: 2013/4/3 5:03

The United Nations and Americas secretary of state are getting tough with North Korea - and all there rhetoric threatenin
g talk of late:

Make no mistake this running dialogue of threats has already Gone to far:

And America will not tolerate any such threats to its security and the safety of its military bases and to its publics safety:

Plus America will be monitoring north koreas re-instated. plutonium manufacturing very closely.

which would enable north korea to have nuclear missile tipped rockets well capable of reaching the united states.

Hence the latest concerns.
