SermonIndex Announcements :: NEW: SermonIndex Software For Downloading Sermons!

NEW: SermonIndex Software For Downloading Sermons! - posted by sermonindex (), on: 2014/5/19 23:24

Genesis 41:49 Joseph stored up huge quantities of grain, like the sand of the sea; it was so much that he stopped keeping records because it was beyond measure.

Saints,

The Lord spoke through a brother that he saw SermonIndex as the grain in Joseph's day. That was many months ago and recently a brother shared that he felt led to compile a software program for SermonIndex so believers could download sermons easily to their computer and then share them with others. I believe this is one way the Lord is going to fulfill the word He spoke towards SermonIndex being like the grain of Joseph in the end-times. As many churches are ceasing to preach the truth and society as a whole is becoming abusive towards the Good News of Jesus Christ. There will be less avenues to access God's word and godly sermons that will edify God's people.

We are encouraging all believers who have a computer to download this software and download many sermons to their computer hard-drives. From there you can listen to sermons easily and also download ALL the sermons of one speaker easily. Our heart in this is that God's people would be able to share these resources with many and have them stored like grain for a time when even SermonIndex.net itself might not be available. This will also provide multiple back-ups of SermonIndex across the world.

You are free also to re-upload and share these messages on your own website or blog. May God's word run and be glorified in these days of famine of

The software can be downloaded for all computer platforms and requires Java installed on your computer.

Here is a link to a basic setup guide: https://img.sermonindex.net/SetupGuideline.pdf

Download Software Installers v1.0:

For Windows:
https://img.sermonindex.net/SermonDownloader-Installer_Win.jar

For Mac:
https://img.sermonindex.net/SermonDownloader-Installer_Mac.jar

(Note: for the Mac version one will need to know terminal and how to navigate with unix to be able to load the software here is help documentation for this: https://www.sermonindex.net/modules/newbb/viewtopic.php?topic_id=52450&forum=21)

For Linux:
https://img.sermonindex.net/SermonDownloader-Installer_Linux.jar

For any support issues please email: sermonindex@gmail.com or respond to this discussion thread.

Please also share your thoughts and if you are using the software and how it is proceeding for you.

SermonIndex Announcements :: NEW: SermonIndex Software For Downloading Sermons!

Re: NEW: SermonIndex Software For Downloading Sermons!, on: 2014/5/20 0:04

About how much total gigabytes are there?

Re: - posted by sermonindex (), on: 2014/5/20 0:33

Quote:
------------------------About how much total gigabytes are there?

Brother, the total is about 250 GB's of mp3 sermons. We are praying and trusting some saints will feel led to completel
y backup SermonIndex on their computer in their location. It will be wonderful to have hundreds and thousands of these
full backup's of SermonIndex in different locations in the world.

Also it will make it easy for saints to share the sermons by copying them to USB thumbnail drives, ie copying all the Toz
er and Ravenhill Sermons to a thumbnail drive to share with others and have them copy it to their computer.

Re: - posted by hulsey (), on: 2014/5/20 10:37

This is pretty amazing.

Re: - posted by sermonindex (), on: 2014/5/20 10:55

ph in the end-times. As many churches are ceasing to preach the truth and society as a whole is becoming abusive towards the Good News of Jesus
Christ. There will be less avenues to access God's word and godly sermons that will edify God's people.

Brother, I know you have many sermons downloaded already trust this will help you download more. There is a "select
all' function for each speaker so if you choose Leonard Ravenhill and press "select all" then "start" you will download AL
L of his sermons it might take an hour or 2 or more depending on how fast your connection is.

Re: - posted by hulsey (), on: 2014/5/20 12:28

It would be helpful to post instructions about how to use the software once it's installed.

Re: - posted by hulsey (), on: 2014/5/20 13:54

How do you access the sermons from the program? Is it supposed to be automatic?

Re: - posted by sermonindex (), on: 2014/5/20 16:43

Quote:
------------------------It would be helpful to post instructions about how to use the software once it's installed.

Dear brother,

I am going to be God willing in the next 1-3 days posting a few help videos for the software.

Quote:
-----------------------How do you access the sermons from the program? Is it supposed to be automatic?

What platform are you using? You will need to ensure your computer is connected to the internet when you load the pro gram for the first time because it downloads the 3 MB file of all the sermons. It should automatically load them in, you wil l see a popup saying that it is installing the update, just wait till it says completed and press OK.

Re: - posted by hulsey (), on: 2014/5/20 22:24

The brother who developed the software helped me troubleshoot the issue. It's working great now.

Re: - posted by sermonindex (), on: 2014/5/20 22:26

Praise God. Anyone else that needs help email me or write here.   sermonindex@gmail.com

Re: - posted by wijnand (), on: 2014/5/21 2:42

How have you fixed it? I am trying to get it working, but it is not working. I see 0 speakers :-(

Re: - posted by sherebyah, on: 2014/5/21 9:12

Dear Brother,

Please try uninstall and re-install the software again. Uninstaller is located in the same folder where you have installed th e software.

Please let us know if you see still face issue.

Sherebyah

What operating system are you using? If you are using linux or mac you could get the zip file from User/Sermon_Cache /Temp and unpack the zip in the /Sermon_Cache/ folder. This would be a manual way if it was not working on your syst em.

Re: - posted by sermonindex (), on: 2014/5/21 10:42

It would be good to know from others how the software is working and what operating system you are using?   Who is a ble to have it loaded well and downloading sermons?

Re: - posted by sherebyah, on: 2014/5/21 10:53

Small correction...

Folder where you can find ZIP file is user/sermonindex_cache/temp and will need to be unpacked in the user/sermonind ex_cache folder.

-Sherebyah

Re: - posted by sermonindex (), on: 2014/5/21 16:01

Saints,

we have updated the installers with a problem many were having this version should work better:

Download Software Installers v1.0:

For Windows:
https://img.sermonindex.net/SermonDownloader-Installer_Win.jar

For Mac:
https://img.sermonindex.net/SermonDownloader-Installer_Mac.jar

(Note: for the Mac version one will need to know terminal and how to navigate with unix to be able to load the software h ere is help documentation for this: https://www.sermonindex.net/modules/newbb/viewtopic.php?topic_id=52450&forum= 21)

For Linux:
https://img.sermonindex.net/SermonDownloader-Installer_Linux.jar

Re: NEW: SermonIndex Software For Downloading Sermons!, on: 2014/5/21 17:18

works for me. downloaded one Wilkerson sermon to test it. Using windows 8

it did freeze while it was updating "Check For Updates" and I wasn't sure what was wrong until it finished.

also when it defaulted to install in "Program Files" it said something about not being able to install it there (permissions?) . So I changed directory to "Libraries\Documents\SermonDownloader" and it worked

plays the sermon I downloaded. best of luck perfecting this software.

Thanks

Re: - posted by sherebyah, on: 2014/5/21 17:45

====
it did freeze while it was updating "Check For Updates" and I wasn't sure what was wrong until it finished.
====

While application updates cache, based on the speed of your internet connection it will take time and you would see it b eing frozen for that time, which is expected.

When you are running App for the first time there is no need to hit "Check for Updates" explicitly as App will do it for you and you should see message "Applying updates" under the menu bar.

=====
also when it defaulted to install in "Program Files" it said something about not being able to install it there (permissions?) . So I changed directory to "Libraries\Documents\SermonDownloader" and it worked
=====

It denied to install under Program Files is because of permission you might have on the PC you are using. If you are not

running installer as an Administrator than you are likely to see that message.

Re: - posted by wijnand (), on: 2014/5/22 2:49

uninstalled it and then installed the new version. It works now ;-)

Re: - posted by Benjamin7 (), on: 2014/5/22 9:50

Thank you, it now works for me as well.

If I may request a feature for the next version, it would be nice to be able to change the download directory.

Re: - posted by sermonindex (), on: 2014/5/22 10:41

Quote:
-----------------------If I may request a feature for the next version, it would be nice to be able to change the download directory.
----

brother,

thank you for the suggestion we will consider this, please do share any other ways you feel the software could be better for future upgrades. I am glad for you being able to access and use it well now!

Re: - posted by sermonindex (), on: 2014/5/22 23:37

It would be great to hear from any brothers and sisters that are using this and being able to download messages.

We are encouraging brethren and will be calling for some brethren to pray about downloading ALL the messages on their computer and hardrive as a way to have a back-up of SermonIndex in their location and for others to consider it an avenue of ministry to have many godly sermon messages to share with others on usb sticks, via posting it to their own websites or blogs, etc.

May God's Word abound and be glorified in the earth.

Re: - posted by murrcolr (), on: 2014/5/24 7:46

What about the text sermons? Can download them as well?

Re: - posted by sermonindex (), on: 2014/5/24 12:19

Quote:

What about the text sermons? Can download them as well?

Dear brother, at this point you can manually download any text sermon as a pdf by pressing the OPEN AS PDF link at the top of any sermon that is in text. To download the PDF just choose "save target as" on the link or the save button once the PDF has loaded.

Re: - posted by sermonindex (), on: 2014/5/29 12:57

It will be great to hear feedback from anyone who has been using the software and has been able to download sermons easily. Please share your experience here. or email on the email on the contact page: https://www.sermonindex.net/contact.php

Re: - posted by hulsey (), on: 2014/5/29 15:10

So far I've downloaded over 50 Gigabytes and closing in on 4,000 files.

Re: - posted by sermonindex (), on: 2014/5/29 15:26

Praise God brother, would love to hear of others who are able to download, even the entire site or many.

Re: NEW: SermonIndex Software For Downloading Sermons! - posted by dougr777 (), on: 2015/3/17 6:53

I'm having some trouble using this downloader, the software seems to hang and doesn't show up any list of sermons, I'm not sure if it's a Java issue, I'm using Windows 7, thanks. Doug

Re: - posted by sermonindex (), on: 2015/3/17 10:48

Brother,

There should be a .log file and also if you share a link to a screenshot that could help.

Re: - posted by wijnand (), on: 2015/3/18 3:58

On LinuxMint he installs the application, but de desktop item isn't created.

How can I start the program? :-)

Re: , on: 2015/3/19 2:20

It's here already. Hot tears ran down my eyes as i read this. Our fathers had to hide manuscripts of their loved apostles, so we had the epistles preserved and other important document. "Sermonindex.net may be no more" that seems to re-echo. Let's be faithful and do like the men of old. Preserve those sermon

Re: - posted by dougr777 (), on: 2015/5/29 8:14

Hi, is there any update on the software fix with the new version of Java? Thanks!

Re: NEW: SermonIndex Software For Downloading Sermons! - posted by Theophila (), on: 2015/5/29 16:37

Hi All,
Thank you, SermonIndex for creating this software. Great way to permanently archive this treasure trove in multiple ways simultaneously.
Downloading all of Bro. Ravenhill's sermons now.

Peace to you all.
