Hi i recently picked up some cds of his at a resale shop and was just wondering if anyone new about him and if they did, is he a good biblical teacher. Actually if you go to his website he offers free cds on his site. But, anyways i like his preaching, the only thing different about him is sometimes he will call sin mistakes more than sin itself. But he does eventually call it sin, i think that is what he means. Also he is a grace preacher and i am very use to a balance or more of a strict type of preaching, maybe i need this.

I know nothing of him.

I recommend Carter Conlon for you
