

Miracles that follow the plow :: Church Buildings - Beacons of Hope

Church Buildings - Beacons of Hope - posted by gospelforasia (), on: 2015/4/1 10:53

In South Asia, Church buildings often double as classrooms for literacy training or tailoring classes, serve as a place for prayer meetings throughout the week and act as a base of operations for relief efforts after serious storms.

Please pray each church building stands as a beacon of hope in its community. Please pray non-Christians who have questions will turn to the church to find answers. Please pray people in the surrounding areas see the buildings as the best place to go when they are in need of help, especially the kind of help that only Christ can offer. If you would like further information and ideas to pray, please click this link <http://www.gfa.ca/pray/2015/march-church-buildings/>.
