Sick son - posted by mloaks, on: 2005/6/8 8:26

My son Todd is on his way to the emergency room with a terrible hand infection. Please pray for his quick recovery, and for skill for the doctor.

Dear Father,

We ask you to help Todd by taking away the worst of the pain in his hand. Please stop the spread of the infection right now, in Jesus' Name, and give him peace as he goes through the necessary treatments. Please give the doctors wisdom and patience, and guide all their decisions, for a successful outcome, and Your glory. Please comfort those who must support Todd in hospital and give them grace and good cheer in their hearts, through Your Spirit. Please make Todd feel better soon. We thank you and praise you! Amen.
