God's ways are not always easy to understand and we may never get an explanation for some of the dark valleys we go through, but we can trust that God knows what is best for us. In times of trials and afflictions, God is teaching us to depend on Him. If we are going to represent God we must be prepared to partake in His suffering. Through the process God is producing something inside of us to help us minister to others. The answer to your suffering is the simple fact that God is faithful and through it all He is planting all we will need to get through every trial and storm.

////////

This is an excellent sermon. He shares his worse experience of being sick and wondering where God was even when he was obeying God.

Enjoy this wonderful sermon!!!

Thank you for posting, Lisa.  
A beautiful and poignant word given by dear Pastor Carter.

We will trust in God no matter what things look like or how we perceive them. This is the place we must come to and it is for His reasons, His purposes. This is the way of our faithful and true Lord.

I will trust in God.

We will trust in God no matter what things look like or how we perceive them. This is the place we must come to and it is for His reasons, His purposes. This is the way of our faithful and true Lord.""

No matter how dark the valley...no matter how intense the storm...

I will trust in God. Amen!
