SermonIndex on Steemit - posted by sermonindex (), on: 2017/8/30 7:43

Saints,

We try and stay updated with the latest social sites and new blog platforms out there. Steemit is a new blogging platform that is de-centralized which means the content is stored in a way that will be hard to be taken down from the internet.

You can follow us here:

<https://steemit.com/@sermonindex>

Let us know if you are on the platform and we will follow you also.

Sister,

the way the site seems to work is anyone who "likes" a post it increases its value, this is a way so there are no ads but rather value for content that is liked and shared.

Our reason to be on the site is to reach out to another place where people find christian content.

All the posts are stored in the bitcoin blockchain which is interesting.
