Announcement Thread: SermonIndex Live Simulcast Event - October 4-6, 2018 - posted by sermonindex (), on: 2018/4/9

Brothers and Sisters,

It is without exaggeration that we are living in times unparalleled in history. As a nation America is in a cross-roads and the world is reeling to and fro without any moral bearing. The Church amidst this great crisis seems to be sleeping. We desperately need true revival from heaven.

After 5 years of hosting no larger events, the Lord has placed on our hearts to host again a large SermonIndex Simulcast meeting. We pray that this is just not another conference or meeting but a crisis point that we can hear clearly God's heart and respond with repentance and prayer. It is not too late for God to send revival, revive His Church and win the lost world to Himself.

We have prayerfully selected 12 speakers to seek the face of God and give us God's heart for the current hour. Would you not consider to be a part of this event in 2018 and be part of the solution of praying for revival?

The Conference will be live in Leona Valley, CA and take place on October 4-6th, 2018

Consider being a simulcast location for your house church or Church location. And also consider to attend live if the Lord directs you. For more information visit the main simulcast registration page.

If I register do I have to come to the entire event?

This is a question we have received many times. You are free to register for the event even if you will only attend part of it. We understand that people's schedules will work to only access part of the simulcast. We do recommend that as many people as possible try and find the time to attend the entire conference and enjoy the times of fellowship and prayer with new believers.

How can I host the simulcast event in my house church or Church?

You can host the simulcast event freely with no cost; you just need to get in touch with us by buying a "your location here" ticket above or by emailing us directly at: sermonindex@gmail.com. If you desire to become a simulcast location we ask that you commit to airing the entire event live as per the schedule in your time zone (these are posted above). Also, you will commit to answering questions from all attendees that plan to come live to your location. All you need technically to host is an internet connection and projector screen with a speed above 300-800kps download. Here is a test video for you to see what connection speed loads; if HD shows then you are set for high quality: <https://tinyurl.com/simulcast2018>

If you are a house church we will want to ensure you have been gathering for over two years with eldership. Otherwise, any new house church can register for the Live Webcast and not be a location.

How can I partner with you for this event?

We are looking for ministries to partner with our event, especially around the Facebook Livestream. If you have a ministry or church that has a Facebook page that would commit to SHARE the event and share it live during the three days please let us know at: sermonindex@gmail.com

Looking forward to fellowship with all believers who attend. It still is not too late to register to come in person: <https://sermonindexlivesimulcast.eventbrite.com/>

or to even have your location setup as a simulcast location on the registration page.
