hey - looks like my writing! nahh- just kidding.

God's word speaks to us no matter where it's placed. I was saved thru a tract I found at a rest area in the mountains! God's word on this telephone poll can have the same saving effect. when i see words like this (and gospel tracts in various locations) , i try to remember to pray each time. Lord, help these words to strike some passer-by that they may read them and surrender to you. amen.

These posters are immense! The power of the word and testimony combined - very challenging. Thank you so much for sharing these here.

These are great Neilgin! They seem completely unselfconscious and from the heart. Thanks for passing these along to us.

Now, the question I have is...did you staple them back up? (just kidding ;-)
