Using the search feature on the front page of the site I came up with this thread discussing this lady and her ministry:

**Mozambique's Revival**

This is my one of my posts from that thread:

This video is taken from the Toronto Airport Fellowship, I find her way of ministering very peculiar and unedifying. The way she is always interrupted with spasmodic sounds and words such as WHOOAAA! is quite strange and unbiblical.

This type of ministry has an appearance of Godliness but really is deceptive in many ways. I would rather be under a bible believing, teaching ministry that seeks first after Jesus Christ and the revelation of Him in scripture.

I don't doubt that God is doing something through this ministry or is using the preaching of His name. But I totally think it is a mis-representation of true Christianity and a shame to God's name in the end.

I can't bear to watch over 15 mins of this video. :-(
