SermonIndex Announcements :: Video Podcasting coming soon..

Video Podcasting coming soon.. - posted by sermonindex (), on: 2005/11/22 13:59

I have been praying about the idea of podcasting and I believe it is a good start to get an video podcast going. It would be essentially and video that you could download via itunes to your computer for viewing or more specifically to your ipod.

The podcast would have various speakers and the quality of the video would be high-quality for viewing on an ipod. The compression scheme will be mp4 and I will have the videos in this compression format available on the sermonindex site also for download.

I will put up a link to the video podcast once it is started. I am open to suggestions and also questions about the podcast.
