How do I download sermons from this site to my ipod?

Re: heip please! - posted by sermonindex (), on: 2005/12/4 22:44

Right click on the sermon titles and choose "save target as" if you are using an mac then the option on the ctrl click will be: "Download linked file as" then rename the file to the title of the sermon and speaker and choose your desktop.

Then open itunes and add the sermon you just finished downloading to your intunes library and then sync your ipod and it should work! :-)
