I don't know if I did this write?

Does anyone have the "The Revival Hymn (VIDEO)" in .mov file?

My computer cannot read a mp4. or wmf. I can however make DVDs with a quicktime movie file or a plain mpeg file. So me Avi files I can use also.

If anyone can make me a movie file please email me and I will give you a email to send it to or mabee I can download it from someone elses site.
