

YES, EVERYTHING IS WRONG... UNTIL JESUS MAKES IT RIGHT**A.W. Tozer:**

Men and women without God are helpless and hopeless human beings. We do well to remember that sin is to the human nature what cancer is to the human body! Who can argue with the fact that sin has ruined us? Our feverish activity is only one sign of what is wrong with us - sin has plunged us into the depths and so marked us with mortality that we have become brother to the clay-but God never meant it to be so. I recall being invited to speak at a summer conference where much of the emphasis is upon fun and amusement and jokes, something like Hollywood, I suppose. After my sessions there, the pastor-director told me frankly of his wife's reaction: "Honey, after listening to Dr. Tozer, can it be true that there isn't anything good in this world?" Well, I know she had a Bible in her house and I consider her query one of the foolish questions of our times. Of course the world makes its own argument that there are things that can be considered good on the human level-but they belong to us only for a brief day. Nothing is divinely good until it bears the imprint of our Lord Jesus Christ! Men and women may argue and make excuses, but it does not change the fact that in our human society we are completely surrounded by three marks of the ancient curse: everything is recent, temporal and transient! That is why the Holy Spirit whispers faithfully, reminding us of the Christ of God, eternity walking in flesh, God Almighty come to live among us and to save-actually to give us eternity!
