Where do you get these messages from? Are the most of them on cassette and need to get digital?

Yes. Virtually every Ravenhill message has been put onto this site from cassette tapes. What gems that are being made for the whole world.

I had to stop it several times during the prayer before I even got to the sermon. My Lord have mercy on me for being too rushed when I pray before my sermons. I never realized how powerful it could be.

Thanx guys, you continue ot make this site a blessing to me.

Blessings.

Can't wait to hear it.

It is amazing that everytime I listen to ravenhill it really brings shame to my mind thinking of modern day preaching what a night and day picture that conjures.

It's an amazing message, alto I don't really get the link with Micah and his god being taken away as its an idol. (have to listen to that again)

Will I be able to have my faith unshaken if I lose everything on this world?
Even things as eyesight or your senses.. health and even a peaceful life are things I take for granted.
The least I can do is to thank God for it more often!

As he said in this sermon: 'Thy kingdom come, my kingdom go!'
Thank you for putting another wonderful sermon on this site! Now all I need to do is to pray that I may be changed.

Btw, the last bit is missing where Ravenhill talks about visiting some catholic preacher.
Do you happen to know how it ended?

Re: - posted by sermonindex (), on: 2005/11/9 23:32

Ah sorry brother at times these old tapes cut off and alot of the messages are on 1 tape so when the tape was full the recording stopped. Alot of the messages of old time preachers went on for hours literally sometimes. Ravenhill usually preached for well over an hour each time.

Still was a blessing to hear it. :-)
