You Have to have this Bible Software!! - posted by Matt25 (), on: 2005/3/6 18:20

Hands down the best bible study tool I've found. I can't begin to describe all the features available. Numerous bible versions, concordances, commentaries, parallels, maps, etc. Downloads to your computer and then you download any and all modules. It should cost more than \$100 but everything is FREE thanks to the author's burden for the Lord.

Yes this is great bible software.. I also suggest if you use a mac to get www.macsword.com which has tons of free modules you can download.

Would gander a guess that the scripture seen in these parts comes largely from just that source.

Hope that also brings to mind that *both* of these are FREE, but someone has to put in the plumbing...

Excellent point crsschk! I made a donation but some may not have the means to do so. I wanted to emphasize the "free" part because anytime I see a high quality tool like sermonindex or e-sword being offered absolutely free of charge I believe it shows that their motivation is not material in nature...Too many "ministries" out there worshipping their bellies.

A message from the creator of e-Sword

"If this ministry blesses you, are you willing to join me in it? LESS than 1% of the people who download e-Sword return to say "thanks" and donate. It is through donations that e-Sword is continuing to be enhanced and remains on the Internet as a free resource for people all over the world. I am excited and encouraged that e-Sword is being downloaded in over 140 countries across six continents."

Quotation from Rick Meyer e-Sword website.

If we got \$1 buck to spare surely we can put that \$1 dollar into an envelope and send it off to him. eh?

I just downloaded the software, if I like it, I will be doing just that.

Thanks for reminding me to donate. The website makes it easy. You can donate online if you have a debit card or credit card. Just a couple of minutes and you're done!

Yes, I really like the software too. I've been giving out CDs of e-sword to friends. It's amazing to see how people will share the software once they've used it. I may have burned 20 or more copies of e-sword. Through those copies I'd guess that 100 people have come to use e-sword.

Rick Meyers works on that ministry full-time and it is a blessing. Personally I believe that SermonIndex will run by God's provision. God's **will** not take this ministry into the place where His **grace** cannot sustain it. I am glad to see Rick Meyers having somewhat of the same vision and heart to not beg for money as much as relying on God to provide.
