:-)

What a joy to find this sight! I have already downloaded some of the classics. Been praying for a moving of God's Spirit throughout our City.

Haha, I am glad you found this website as well! Yes, vintage preaching is great isn't it?

Praying for a move of God through your city? Yes I am praying for one too in mine. I will interceed for your city as well. What city is it, Milwaukee?

I must as a warning though say to not get so caught up in the sermons that you set aside the Word of God as your food. I know I have done that before, so try not to do the same! :-)

WOO HOO! We in our area (Northeast Indiana, City of Decatur) are also praying for a move of the Spirit, and things are starting to happen! Hearts are turning towards God!

Our city's big festival of the year is, unfortunately, a weeklong homage to Halloween..... They call it The Calithumpian Festival ("Calithumpian" means boisterous noise), and it has been held for the last 85 years. But our God is greater!!
