**Mapping the evangelical world**

What does the evangelical world look like? WorldMap.org has put together a very broad visual picture of the state of evangelical Christianity around the globe

Map Image (1 meg) just click to see! very powerful!

The color-coded map highlights the current status of the evangelical church in cities around the world—from North America, where evangelical Christianity is heavily represented, to India and the Middle East, where it's much less common. It also highlights the areas of the globe where the Gospel message has received the most positive response in the last 25 years, and what areas are in the most need of Bible translations into local languages.

I found just downloading the jpg image to be very edifying to look at and pray over. What a need we have to spread the kingdom of God! Lets get involved praying.
