What I wish to know is how on earth do people find out this stuff?

I've had this emailed to me several times. It is interesting but all it tells me is someone has some serious time on their hands.

Yeah someone showed me this (with the 20 dollar bill) just a few months after 9/11. I really don't know what to make of it. It certainly is interesting though. I'd also be interested in knowing who the first person was who discovered this. Who was just randomly folding money and said "hey!this looks like the twin towers"

Hi Mr_CPK is your quote from Mark Cahill? He's a great speaker isn't he?

What you about to read could not be done by man therefore; a conspiracy theory is not an option. It's just one of those things in life we'll have to ask God one day.

Coincidences in Presidents Lincoln and Kennedy
Have a history teacher explain this ----- if they can.

Abraham Lincoln was elected to Congress in 1846.
John F. Kennedy was elected to Congress in 1946.

Abraham Lincoln was elected President in 1860.
John F. Kennedy was elected President in 1960.

Both were particularly concerned with civil rights.
Both wives lost their children while living in the White House.

Lincoln 's secretary was named Kennedy.
Kennedy's Secretary was named Lincoln.

Now it gets really weird.

Both Presidents
were shot on a Friday.
Both Presidents were shot in the head.
Both were assassinated by Southerners.
Both were succeeded by Southerners named Johnson.
Andrew Johnson, who succeeded Lincoln, was born in 1808.
Lyndon Johnson, who succeeded Kennedy, was born in 1908.

John Wilkes Booth, who assassinated Lincoln, was born in 1839.
Lee Harvey Oswald, who assassinated Kennedy, was born in 1939.

Both assassins were known by their three names.
Both names are composed of fifteen letters.

Now hang on to your seat.

Lincoln was shot at the theatre named 'Ford.'

Kennedy was shot in a car called 'Lincoln' made by Ford

Booth ran from the theatre and was caught in a warehouse.

Oswald ran from a warehouse and was caught in a theatre.

Booth and Oswald were assassinated before their trials.

=====

And here's the kicker:

A week before Lincoln was shot, he was in Monroe, Maryland.

A week before Kennedy was shot, he was with Marilyn Monroe.

bro Santana

Lincoln was not particularly concerned with the (frederick Douglas wrote the emancipation proclamation)Lincoln wanted to keep the union together at all costs even if it meant the south keeping their slaves. The South wanted to keep their slaves but they took issue to the unfair taxes imposed on them by the north (among a lot of other things) and so voted to do their own thing. lincoln was not about to have that no matter what.

but, i'd certainly like to ask God about those similarities between the 2...and also who REALLY shot JFK ;-)

Hi Mellisa. Yes I got that quote from Cahill. He is definitely a great speaker and good example of someone who has their priorities straight.

The dollar bill shows a Menorah. Turn the bill back up, Then flip it so that the eagle is upside down. Next look at the shield that the eagle is holding. Count the light parts on the shield and you come up with seven. Just like the menorah has. :-)

I am not american, but come on I thought you guys were "brighter" then this. did they make the 20 dollar bill with the potential to spell "osama" before he was born? most conspiracy theories can easily find proof by just bending reality abit.
