Meditating on Psalms 119

Verse 01: True blessing:

To live uprightly. To walk in integrity. To have a heart undivided.

The law of the Eternal Â– The overwhelming quality of otherness.

A source of life that produces otherness.

A state of being which speaks up against general frivolousness and shallowness.

A blessed state which stays on track, never diverted, never in need for quick fixes, never running here and there for another novelty.
