

SermonIndex Announcements :: Top Downloads and Comments

Top Downloads and Comments - posted by sermonindex (), on: 2007/2/8 3:03

I have changed the amount of top downloads and comments on the front page of the website. Now there are the **top 25 downloads** on the left hand side of the site.

And now there are **35** recent commented sermons listed on the right hand panel of the front page.

I will be adding more features to browse sermons, hopefully a by scripture search and also trying to impliment a topical search in for some of the sermons at least.

Re: Top Downloads and Comments - posted by hmmhmm (), on: 2007/2/8 3:23

i don't know if this is possible... but id like to see something like list that contains for example top 10 most commented sermons, or top 15 or whatever, but a list so that people can see the sermons whit most comments, i think that would be much helpful .

Christian

Those sound great. Thanks for all the hard work you do Greg. You are appreciated and prayed for. Thanks again.

Steve

Greg,

Great change! Many thanks. One more question. I have often wanted to view ALL of the sermons in popularity order. Naturally, I am not saying we should just look to the most popular sermons -- Jesus said something of the opposite. But, I would find it interesting and perhaps uncover a few gems for messages if all of the messages were ordered, or at least the first thousand.

Thanks!
