

Miracles that follow the plow :: health

health - posted by awakenwithin (), on: 2007/2/9 13:23

I am having a hard time keeping my blood sugar down. I am high risk of it hurting the rest of body. I was doing good for 2 weeks, but just few days ago, it started going high again. It is making my feet hurt really bad. Please pray I eat the right foods and do what Dr's tell me. I want joy, and I put my hope in God. Please pray I don't give up. But I have wisdom in everything I do.
thanks

I am praying for you. He is the great physician.

Father in the name of Jesus I pray for healing for awakenwithin. I ask for this blood sugar to be balanced and the pain in the legs to go. Thank you that if two of us agree as touching anything you hear us. We thank you that you now answer our prayers. Amen

Thank you for your prayers. sometimes I just want to give up. But My God is good and doesn't let go of me. Thank you so much for your prayers. I needed them today. I just wanted to give up. I was sick all day. But I knew God was with me, he also took the pain in my feet.
