If you look on the Times Square Church site, you can listen to Pastor Dave's recent word called "The Dreadful Day No One Wants to Talk About" preached February 25. I encourage you all to listen to it. It's a prophetic message regarding the coming days and what may be coming very soon to America.

I believe the pastors from TSC are men of God. I remember right before 9/11, my pastor and I were talking and he mentioned that Pastor Wilkerson had suddenly cancelled all visitations/conferences to the church. I never really thought much about it. Now we all know why.

To hear him and Pastor Carter cry out with another warning, to be honest, it's frightening to me.

I find it very interesting that as I was placing a post on this message on the moderators thread, you were telling us to listen to it as well. God must be saying something, we better have ears to hear.
